Human Resource / Hiring Manager

Dear Sir/Madam

First, thank you for taking the time to review my CV. I understand how difficult it can be to sort through a stack of paper looking for that single perfect candidate.

I believe you will find I possess the necessary skills and experience you are seeking and would make a valuable addition to your company. As my resume indicates, I possess more than 20 years of progressive IT experience. My professional history includes positions such as Lead Developer/ Architect for Estee Lauder Companies and several other Fortune 500 companies.

I have been working (100% remotely) with the same consulting firm for over 12 years. I can provide many current, verifiable, senior management references from national and international e-tailers and industry leaders, and you can be confident that I will continue to provide the same level of professionalism and exemplary project management skills they have come to expect.

Please feel free to visit my website for more information about me, or connect with me on LinkedIn or Github. I have attached my resume for your review, and I look forward to speaking with you further regarding your available position.

Yours Sincerely

Chris Mincarelli
